

Play Equipment

Play equipment is on a replacement schedule based on our annual safety audits. Equipment is identified as needing replacement based on its age and safety audit point priority ranking. Play equipment has a normal life expectancy of 15 years.

The City of Eden Prairie requested proposals for new playground designs and equipment at Nesbitt Preserve Park, Bluffs West 1 Park, and Bluffs West 2 Park. The City received proposals from four vendors and after reviewing options with the Parks, Recreation and Natural Resources Commission., St. Croix Recreation's designs were chosen for all three parks.
