Submittal Instructions

All sign permits go through the City’s ePermits portal. Please review the instructions below.

1. Review the City’s sign regulations in **City Code Section 11.70**.
2. **(First-time appliers only)** Call the Building Inspections Division at 952-949-8342 to have staff add your contractor information to the ePermits database. Note that a contractor’s license is **not** required.
3. **(First-time appliers only)** Create an account with the City’s ePermits portal.
4. Fill out this application form.
5. **Apply for a sign permit** on the ePermits portal. Please review the submittal requirements and fee information on this page and click the link at the bottom to apply. This permit applies to commercial, office, industrial, apartment and public uses. Please contact staff if the project site does not fit this description.
6. After applying, an automated email will be sent to you via ProjectDox, the City’s electronic plan review software. Follow the instructions and upload this sign application form and the required sign drawings.
7. Staff will review the submitted materials on ProjectDox. When the review is complete, another email will be sent asking you to either revise/resubmit plans or to make an online payment for the permit.
8. If required by Building Inspections, schedule an inspection on the **ePermits portal**.
